How to look 4 years
younger in only 14 days!

Dear Friend,

We can't stop the aging process, but if we can slow it down, so we look and feel younger than our years, we have done something wonderful. That has been my goal since I started Clientele over 30 years ago and I'm proud to share that vision with the wonderful Dr. Andrew Ordon.

You know him from the hit TV show *The Doctors* and here you'll get to learn a little more about him. He's not just a renowned plastic surgeon - but a great humanitarian as well.

We're also excited to introduce Clientele's new Gravity Control System in this issue. You've heard the term "space-age technology" before, but this new anti-aging tool uses light therapy actually developed by NASA! The LED lightwaves stimulate cellular activity and collagen production to help improve the look of your skin. We've combined the FirmaLight™ with our new Gravity Control™ Serum which contains Peptides, Youth Factors and Resveratrol to increase your skin's firmness and luminosity. In clinical studies, subjects looked 4 years younger in just 14 days!

Please stay in touch. Just go to facebook.com/clienteleskincare. Keep your comments coming – we love to hear from you!

Best wishes,

Pat Riley

Save the Children

There is a growing social awareness that we all must do what we can to help those less fortunate. I was thrilled to see [CNN Heroes](#) honor everyday people who changed the world with their acts of kindness and concern for others.

(From left to right : Victoria, Pat & Joel)

In Miami recently, Pastor Joel and Victoria Osteen packed the American Arena giving their inspirational message in a [Night of Hope](#) with Joel's Mom Dodie. Dodie looked beautiful and youthful at 77. She loves Clientele and we love her. Dodie is proof of miracles. She survived a deadly cancer diagnosis decades ago, which she describes in her book "Healed of Cancer" which shares her favorite Bible passages on healing.

Dodie Osteen

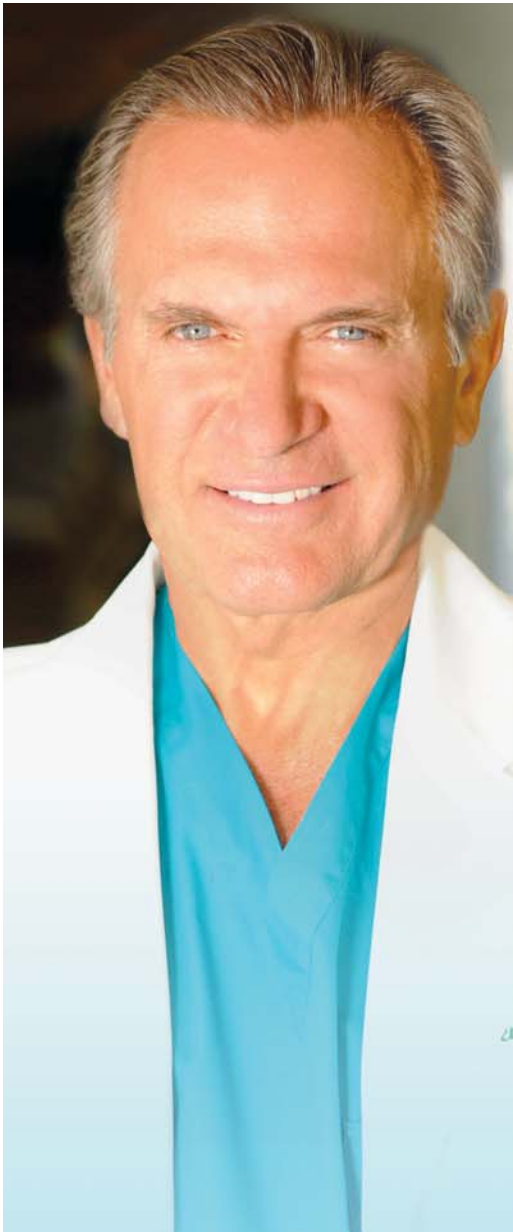

Joel gave a great inspirational message reminding us that God is creating opportunities for us every day. We need to be positive and walk in faith. Joel's conference sponsor is Save the Children. For just about \$1 a day, a child born into poverty can be given lifesaving healthcare, education and financial support.

When Joel urged the audience to raise their hand and sponsor a child, I did along with hundreds of others. I would have been happy to sponsor a child in Africa, South America, or any other poor area of the world. Save the Children helps over 48 million children in 50 countries around the world. So imagine how surprised I was to be handed a picture of a cute little boy who lives in Nepal, in a remote agricultural region called Kapilvastu, 160 miles from Kathmandu, and the birthplace of Buddha, revered with the legend of the Sacred Lotus! Talk about miracles!

Nepal is home to Mt. Everest and the same mountain range where my father braved the Himalayas as a WWII pilot 168 times, earning him the Chinese Medal of Honor. What a blessing from God to be given the gift to help this child and his family in this remote region of the world. I hope each of you will consider being a Save the Children Sponsor. To help you get started, **Clientele will give \$1 from every customer order from this issue to Save the Children.** We thank you for your help, and we urge you to sponsor a child directly, by calling Save the Children at: 1-800-728-3843 (M-F 8 am - 5 pm) • Dr. Pat Riley

Dr. Andrew Ordon

Dr. Andrew P. Ordon, M.D., F.A.C.S, is an acclaimed Plastic Surgeon, TV Host, Philanthropist and Author. Recently he was honored with the 334th Golden Palm Star on the Palm Springs Walk of Stars, an honor bestowed to Hollywood's biggest Stars.

Dr. Ordon (www.DrOrdon.com) is a renowned expert in aesthetic plastic and reconstructive surgery with offices in Beverly Hills and Rancho Mirage. Dr. Ordon co-stars on CBS's Emmy Award winning hit daytime series, *The Doctors* (www.TheDoctorsTV.com), a fascinating show that gives important lifesaving health information and anti-aging discoveries. Each day Dr. Ordon answers health questions with a panel of medical experts: Dr. Travis Stork, Dr. Jim Sears and Dr. Lisa Masterson. Dr. Ordon was hand picked for the show by Dr. Phil McGraw who refers to him as the "plastic surgeon to the stars".

Dr. Ordon said, "For me, *The Doctors* is a new challenge that I embrace with the same passion and energy that I have had for 25 years in private practice. I am very excited about sharing my expertise and giving viewers a glimpse into what is possible through reconstructive and cosmetic surgery, as well as telling them about the latest trends in skin care, anti-aging and well-being."

Dr. Ordon is a Board Certified Ear, Nose, and Throat Physician who studied at USC, UCLA, and Loma Linda, respectively. He then completed his training program in Plastic and Reconstructive Surgery at the prestigious Lenox Hill Hospital/Manhattan

Eye and Ear Infirmary Program in New York City. He is currently an Assistant Clinical Professor of Plastic Surgery at Dartmouth Medical College and the UCLA School of Medicine.

Dr. Ordon regards himself as an artist, as well as a physician/surgeon. "My craft allows me to make an impact and change the quality of life for my patients, whether

it's reconstructive surgery or changing something that people don't like about themselves with cosmetic surgery," said Dr. Ordon.

Dr. Ordon is the author of *Revealing the New You, A Guide to Plastic Surgery and Everything You Always Wanted to Know About Plastic Surgery*. He also contributed to one of the best-known textbooks in the field of plastic surgery entitled *Facial Aesthetic Plastic Surgery*.

Dr. Ordon is also a generous and compassionate humanitarian who dedicates much of his time away from the studio to serving others. Dr. Ordon is one of the founding members of the Surgical Friends Foundation (www.SurgicalFriends.org), a non-profit organization that provides reconstructive surgery to those here in the United States and abroad who otherwise would not be able to afford such surgeries. In California's Coachella Valley, Dr. Ordon works closely with the staff

Plastic Surgeon & National Television Authority

at Eisenhower Medical Center, where he often performs surgery on patients suffering from extreme cases of skin cancer.

In the aftermath of the magnitude 7.0 earthquake that struck Haiti in January 2010, Dr. Ordon traveled with the other physicians from *The Doctors* to the devastated country to perform emergency and reconstructive surgeries on the injured.

In March of last year, Dr. Ordon traveled to India with Smile Train (www.SmileTrain.org) to perform cleft lip and palate surgeries on needy children. He has been an outspoken advocate for the organization, which oversees more than 100,000 surgeries a year in 77 of the world's poorest countries. The organization also provides children with dental care, orthodontics and speech therapy after surgery is completed.

Dr. Ordon will tell you that a healthy lifestyle is the secret for staying young. He exercises daily and takes great care of himself. What is his prescription for great skin? "Great skin care. Cleanse and exfoliate but do not over dry your skin with too many Alpha Hydroxy Acids. Moisturize but don't combine too many layers of greasy creams that can clog pores. Be gentle on your skin. Wear your SPF 25 each day. Before seeking a face lift or other facial procedures, try new natural alternatives like LED light therapy that can boost collagen, decrease wrinkles and firm the skin."

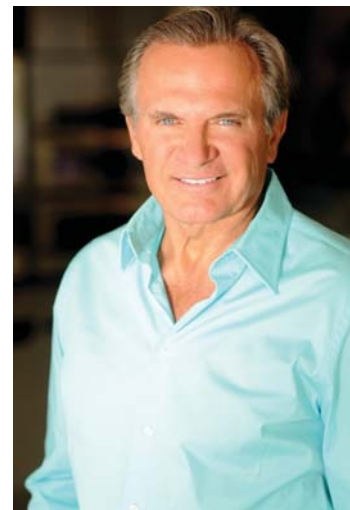

Dr. Ordon says, " Make your health a priority. Eat a balanced diet. Drink lots of water. Nourish your skin from within with a healthy diet and take antioxidants. Wash your hands often and use alcohol wipes on your cellphone regularly."

Although Dr. Ordon has created some of the world's most beautiful faces, his true love is his lovely wife, Robyn, a former top model and talented interior designer. Together they have 2 children, recent college grads who are also pursuing careers in medicine. The Ordon's lead a busy lifestyle between the East and West Coasts.

I interviewed Dr. Ordon while he vacationed in Mexico. His idea of relaxing? "Exercise. Tennis. Golf and Skiing." I said, "Well you had a full day!" He replied, "It's not dark yet, I am running out the door to hit the big waves and go surfing!"

We applaud Dr. Ordon who does it all. More than handsome, his eyes sparkle with boundless energy and enthusiasm for life.
